Professional Summary

Software Engineering undergraduate at The Open University of Sri Lanka with hands-on experience in full-stack web development, database management, and software quality assurance. Experienced in developing web applications using React, Node.js, Express, and MongoDB, with knowledge of Java, Python, SQL, REST APIs, and object-oriented programming. Industrial experience includes automated testing, functional testing, role-based access control validation, and workflow automation for the national education management system. Seeking a Software Engineering Internship to apply technical knowledge, contribute to software development projects, and grow as a software engineer.

Technical Skills

Programming Languages: JavaScript, Java, Python, SQL, C
Web Development: React, Node.js, Express.js, HTML, CSS, Tailwind CSS
Databases: MySQL, MongoDB
Software Engineering: Object-Oriented Programming (OOP), Data Structures and Algorithms, RESTful APIs, CRUD Operations, SDLC, Agile Methodologies
Testing and Automation: Playwright, Selenium WebDriver, Functional Testing, Regression Testing, Test Case Design
Tools and Platforms: Git, GitHub, VS Code, Jira, Apache JMeter, ExcelJS, Figma, Moodle
Other Technical Skills: Data Analysis, Pandas, NumPy, Matplotlib, Basic Linux

Projects

Software QA - *Industrial Training (NEMIS Project)*
Tech: Playwright, Selenium, JavaScript, Jira, ExcelJS
October 2026

- Performed functional, regression, and workflow testing for the National Education Management System.
- Developed automated test scripts for CRUD operations.
- Conducted RBAC testing, CRUD testing, and cross-environment permission audits.
- Automated Excel report generation using Node.js and ExcelJS.

Smart O/L ICT – Full-Stack E-Learning Platform
Tech: React, Node.js, Express, MongoDB, JWT | GitHub: https://github.com/sanduf01/SmartOLICT
March 2026

- Developed a full-stack MERN application with role-based authentication and RESTful APIs
- Implemented features including quizzes, leaderboards, and progress tracking
- Designed backend services and integrated MongoDB for efficient data handling

Hospital Management System (SQL)
GitHub: https://github.com/sanduf01/Hospital-Management-System-SQL
December 2025

- Designed database systems using views, triggers, procedures, and functions
- Automated inventory updates and managed structured healthcare data

GN QuickCheck – Digital Service Platform (Group Project)
Tech: Figma, UX Design, HCI Principles | GitHub: https://github.com/sanduf01/GN-QuickCheck
October 2025

- Designed a user-centered digital platform to improve accessibility and efficiency of Grama Niladhari services
- Created wireframes and interactive prototypes using Figma based on UX/HCI principles
- Enhanced user experience by integrating features such as real-time availability and guided document workflows

Software Testing & QA Project
Tools: Apache JMeter
GitHub: https://github.com/sanduf01/Amazing-Colombo-Visit-Colombo-QA-Project-June 2025

- Created test plans and manual test cases
- Performed load, stress, and performance testing

Work Experience

Intern – Software Quality Assurance | NEMIS Project
Sri Lanka Air Force – HQ
April 2026 – October 2026

- Developed E2E test automation scripts for core web application modules using Playwright and Selenium
- Authored Node.js and ExcelJS scripts to automate database reporting and extract zonal statistics
- Conducted Role-Based Access Control (RBAC) security audits across 6+ administrative user tiers
- Managed bug lifecycles in Jira and organized test suites within bi-weekly Agile sprints

Intern – Content Creation & Teaching Assistant (Remote) | EduNET.LK
Lanka Education and Research Network (LEARN), University of Peradeniya
March 2024 – August 2024

- Managed and maintained content within the Moodle Learning Management System
- Assisted in technical and academic tasks with lecturers and researchers
- Resolved platform-related issues and supported users
- Collaborated with teams to enhance course content and system usability

---

Soft Skills

Leadership	Effective Communication	Problem Solving	Analytical Thinking
Team Collaboration	Time Management	Willingness to Learn	

Education

- **Bachelor of Software Engineering (Honours) - Undergraduate**
  The Open University of Sri Lanka
  2023 – Present
- **G.C.E. Advanced Level (Physical Science Stream)**
  Anula Vidyalaya, Nugegoda
  2022 – 1C, 2S
- **G.C.E. Ordinary Level**
  Anula Vidyalaya, Nugegoda
  2019 – 9A passes

Certifications

- Codeless Test Automation Path – Test Automation University, 2025
- Google AI Essentials – Google, November 2025
- Introduction to Machine Learning – Kaggle, June 2025
- Networking Essentials – Cisco Networking Academy, January 2025
- Full-Stack Developer Programme – Centre for Open and Distance Learning, University of Moratuwa, 2023

Volunteering

- Member – Software Engineering Society, OUSL
- Member – FOSS & Linux Education Community (EduNET.LK@LEARN)
- Teacher – Siri Wangeesa Dhamma School, Piliyandala
